## EDUCATION

### Full Stack Web Developer (full time)

Masai School, Bengaluru  
Oct 22 - Nov 23

### Master of Science (Mathematics)

Veer Narmad South Gujarat  
University  
April 17 - April 19

## TECHNICAL SKILLS

JavaScript | React | MongoDB |  
Node.js | HTML5 | CSS3 |  
Prompt Engineering | TypeScript |  
MySQL | Chakra UI | Angular | Git |  
GenAi | Express.js

## SOFT SKILLS

Problem Solving |  
Time Management | Adaptability

## INTERESTS

- Drive a car on mountain road
- Playing Cricket, Kabaddi

## CERTIFICATIONS

- JavaScript Intermediate Certificate
- Zoom Marathon Challenge Certificate

# Rahul Chaudhari

## Full Stack Web Developer

### PROFESSIONAL SUMMARY

Experienced full-stack web and genAI developer proficient in JavaScript and the MERN stack. Expertise in creating robust server-side APIs with Node.js and Express.js, and implementing responsive front-end components using React.js. Skilled in optimizing database models and queries with MongoDB. Strong problem-solving and collaboration abilities, continuously updating skills to drive software excellence.

### PROJECTS

#### 1. ChatVista | |

Mongodb | Nodejs | Express | React | NPM Packages |  
Chakra UI | CSS

- Developed a real-time chat web application using *MongoDB, Node.js, Express, and React*
- Implemented fully responsive design for all devices using *Chakra UI* and *CSS*
- Incorporated user authentication and authorization, message storage and retrieval, group chat functionality, and search and filter capabilities

#### 2. HealHub | |

Socket.io | CSS | Node.js | mongoDB | Express | Redis

- Built a virtual doctor appointment booking platform, allowing users to book appointments with doctors.
- Implemented real-time video calls using Socket.io for seamless communication between doctors and patients.
- Developed user authentication and authorization systems for secure access to the platform.
- Created a responsive design for the platform to ensure compatibility with all devices.

#### 3. CodeFlexor | |

Node.js | React | TypeScript | Chakra UI | OpenAI

- Developed a versatile code converter, quality checker, and debugger tool using Node.js, React, TypeScript, Chakra UI, and OpenAI API.
- Enabled seamless conversion of code between different programming languages.
- Implemented a robust code quality checking feature to identify and fix coding issues.
- Utilized the OpenAI API for advanced functionalities and intelligent code processing.
- Ensured efficient server-side processing by using Node.js with TypeScript.
- Designed and developed the frontend and backend components using TypeScript.
